

Al-Andalus Ensemble
Tarik & Julia Banzi
GENERAL SOUND REQUIREMENTS

The Al-Andalus Ensemble tries to be as flexible and simple as possible in staging and sound reinforcement needs while still assuring a quality sound/ setting. We will always contact you directly to discuss the sound and staging arrangements prior to the show.

Sound needs vary widely depending on size of venue and ensemble formation. Below we answer some of the common questions regarding needs. Please do not hesitate to contact us at your convenience if you have any questions or concerns (music@andalus.com). We look forward to working with you!

1. Q: What are your minimum stage dimensions and are there any special requirements?

A: 10x10 stage is sufficient, larger 24x24 or more is always appreciated! IF dance is involved, the stage area MUST be WOOD or non carpeted (for flamenco footwork, wood is preferred).

2. Basic System Requirements:

8-16 channel mixer (depending on # of musicians, 16 is always sufficient).

Reverb or capability for effects unit (we can bring reverb unit if necessary, LET US KNOW!)

2 speakers (can sometimes be used as monitors for smaller performance venues).

2 monitors (see above).

Lighting: Minimal stage lighting or maximum if you have it great! (please doublecheck (music @andalus.com)).

Microphones, Boom Stands, Armless chairs as per stage plot.

3. Q: Do you need a sound technician?

A: In a small hall, we are able to run our own sound from stage. However we do need a stagehand we can direct to help out. In a larger hall setting, we will need a sound technician.

4. Q: Do you need stagehands? A: As per above

5. Q: How long does it take to load-in, set up and test sound?

A: Our set up time and load-in with sound check varies widely depending on expertise of sound technician... but a rough guide is to allow for approximately 2 hours for the entire group and tear down and load out 1 hour.

6. Q: Do you need a dressing room?

A: If dance is involved, a dressing room or some sort of changing area will be required. If music event only, we can make do with backstage space (green room). A sink and mirror are always appreciated.

7. Do you require arrangements for transportation and accommodation. As per contract.
